

LEUWENBURGH LANGUS

21ST ANNUAL BULL SALE

TUESDAY, MARCH 20, 2012
BALOG COW PALACE
LETHBRIDGE, ALBERTA @ 1:00 pm

Friends and Fellow Cattlemen

A warm welcome from the Leeuwenburgh Family to our 21st Annual Bull Sale. We would like to extend a hearty thank you to all of our buyers for their continued support over the past years. The large amount of our re-peat buyers is truly gratifying. We will continue raising sound, functional cattle that will increase your bottom line, come weaning time. We are here to supply you with a bull that has been responsibly raised and will thrive in the harshest conditions. We have a 42 day breeding program on our heifers and a 65 day breeding window on the cows in order to maintain a high level of fertility. All the while we have a strict emphasis on milk and also foot and leg structure. We raise our heifers on a high roughage ration with no grain in order to find the ones that have natural fleshing ability, and will be very low in maintenance; we are not trying to raise show cattle. We continue to search for new sires and never shy away from using the new and up coming bulls. We have a variety of bulls on offer with a very nice spread of birth weights which are accurate. There will be no surprises for you, come calving time. All of our bulls are guaranteed and they have to be breeders, no matter what the conditions may be. You will notice our bulls are not pushed hard on feed and we do not chase after the large yearling weights. We feel a lot of damage is done this way to a yearling bull with no real advantages. This year we collected carcass data from our bulls for the first time and feel it is a good tool to separate what is fat and what is muscle. We let our genetics do **the work, not the feed. We encourage you to compare EPD's on our bulls to others in the breed.** *Willard & Jack*

We are confident our bulls will maximize your cow herd's potential in a time when the cattle industry is extremely strong. More than ever it is important to have weight on your calves come weaning time since those are the calves obviously bringing top dollar. It is a great time to get a bull that will push the scale down! Stop by the farm and look at the bulls or females anytime, we are happy to show you around and are looking forward to seeing you again or meeting you for the first time!

Johnny

Sincerely,

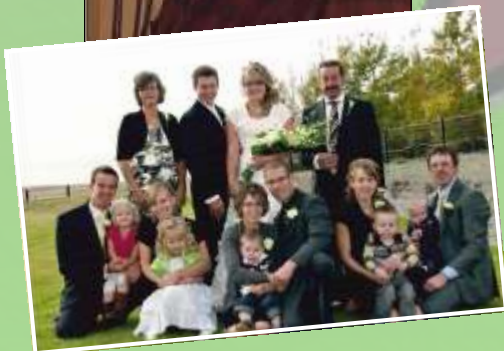

All of us at Leeuwenburgh Angus.

Charles

CHARLES (403)394-6169

BALOG AUCTION (403) 320-1980

— EXPLANATION OF PERFORMANCE DATA —

AOD...Age of Dam ADG...Ave. Daily Gain: Birth-Wean.

BW... Birth Weight 365D...365 Day Adj. Weight

WW...Weaning Weight. Sept.7/11 ADG...Average Daily Lifetime Gain

205D...205 Day Adj.Weight

— ACTUAL WEIGHTS —

Actual weights to be taken March 19, 2012. These will be available, along with scrotal measurements as a supplementary sheet on sale day.

— ULTRASOUND FOR CARCASS MERIT —

Ultrasound technology provides a way to gather data correlated to carcass genetic predictions without harvest. The traits measured are Rump Fat thickness, Rib Fat (Fat Thickness), Rib Eye Area (REA), and Percentage Intramuscular Fat (%IMF). These traits are heritable. Genetic evaluation of these traits will allow breeders to select animals with the carcass traits that they desire for their breeding program. EPD's are more useful than actual data to give a best genetic prediction of the carcass merit of the animal. Ultrasound data, like other measured performance data, can vary year to year due to changes in feed (drought/nutrition), age at scanning, etc.

BALOG AUCTION SERVICES INC

Fellow Cattlemen

We have finally turned the corner!!

Record prices for all classes of cattle and the best part is that the real cattlemen will finally see their efforts & hard work turn into a rewarding profit! The opportunity to buy bulls from the proven and very successful Leeuwenburgh Program is yet another plus!! Seed stock with emphasis on milk, calving ease, growth and carcass traits have assured proven performance from Leeuwenburgh Bulls! Join the many repeat buyers who participate loyally year after year and share in the genetics that will work for you. Join us at the Leeuwenburgh 21st Annual Sale and take your program to the next level.

Respectfully, R.C. (Bob) Balog

— EXPLANATION OF EPD TERMS —

EPD's provide a tool for genetic comparisons of cattle that can be used by both purebred and commercial cattle producers alike. EPD's are expressions of the relative genetic merit of beef cattle for various traits. They are used to compare the predicted progeny performance between two bulls (or females) within a breed, regardless of age or herd location. These are the EPD averages to compare the bulls in this catalogue to:

Average EPD's for all Red Calves born in 2011

BW	WW	YW	Milk	Total Maternal	MARB	REA	FAT
+0.5	+26	+50	+14	+27	-.07	+.01	-.012

Average's for bulls in this catalogue: BW +0.3 WW +35 YW +66 M +16 TM +34

Average EPD's for all Black Calves born in 2011

BW	WW	YW	Milk	Total Maternal	MARB	REA	FAT
+2.8	+42	+74	+17	+38	+.26	+.15	+.011

Average's for bulls in this catalogue: BW +1.7 WW +50 YW +90 M +21 TM +47

BW: Birth weight is related to calving ease. Lower birth weights tend to reduce the incidence of calving difficulties. Lower birth weight EPD is more desirable for heifers.

WW: Weaning Weight is an indicator of growth from birth to weaning (205 days of age). During this period, the calf's growth is influenced by its mother's ability to produce milk and its own ability to grow.

YW: Yearling Weight is an indicator of growth from birth to yearling (365 days of age). The calf's growth during this period is influenced by its own ability to grow plus its mother's maternal abilities. It is the best estimate for total growth.

Milk: Milk EPD reflects the milking ability of a sire's daughters expressed in pounds of calf weaned.

TM: The Total Maternal EPD predicts the difference in weaning weight of the sire's daughter's progeny due to the combination of growth genetics and milking ability. It is equal to one-half of the weaning weight EPD plus the milk EPD.

— CARCASS EPD —

MARB:(%IMF) Marbling EPD is a predictor of the level of intramuscular fat and is derived using CUP ultrasound data and actual carcass data. Marbling determines quality grade.

REA: (Ribeye Area) Ribeye area is expressed in inches² and is a predictor of the area of ribeye muscle at the 12th/13th rib.

FAT: (Backfat thickness) Backfat EPD expressed in tenths of an inch is a predictor of the depth of fat over the ribeye muscle at the 12th rib.

Red Ted Catalyst 107T is a genetic package that is second to none when you look at his pedigree. If performance is needed then his sons will add that and more. He offers tremendous capacity with extra rib and top end. He excelled in every one of his EPD'S with a low BW and off the charts WW, YW and MILK. Catalyst 107T is a high growth bull and will add lots of volume. His sons have marvelous attitudes and impressive good looks. They have moderate frame sizes but have serious depth and density. Catalyst's progeny will inject anyone's herd with power, performance and maternal.

Marias is a sire with an outstanding growth EPD package and is a superior carcass sire offering a breed leading combination of marbling, ribeye and fat EPD's — he is a powerhouse, ranking in the top 1% of the breed for all three carcass traits. His sire, Heaven or Bust 1000B is an elite calving ease sire with superior maternal ability. Marias sires heavy muscled performance cattle with extra eye appeal. Marias semen is very rare and his progeny are difficult to find.

38Y A very dark haired Networth bull with loads of back and top end. We have been very impressed with the feet and legs on the Networth calves. He will do the Red Angus breed a lot of good. John Slingerland purchased a 1/2 brother at the 2011 sale.

Universally known as the breed's most dominant sire of muscle and thickness, his stout-made sons are in demand by registered and commercial cattlemen. His daughters in production are deep, broody, moderate-framed cows with superior fleshing ease, fertility and udder quality.

Final Answer's popularity continues to soar due to his ability to sire consistent low birth weights in commercial and registered herds across the world. His daughters are remarkable producers with excellent udder structure, longevity and fleshing ability, enabling them to survive the harshest environments.

6

6Y Our first ever Bismark son and his is impressive. Thick hair coat and loads of thickness. The grandma, 37N is a Border Butte cow that was purchased years ago at the Chinnok Classic in Taber. She has been a foundation female with excellent fertility. Your going to want to retain females out of this buy. Check out the TM and Milk EPD's.

8

8Y This is worth a long look. A low birth weight Network worth son with great growth. Unmatched in the top end and has a very square hip. His feet are every bull buyers dream and has an excellent disposition. The Stockman dam is an CAA elite dam that was lost on pasture this summer, so we will be retaining a semen interest.

11

11Y A very balanced cow bull that is going to stamp his progeny with good growth traits, while keeping cow frames in moderation. The Rainbow Hills dam is a moderate framed cow that is proving to be very fertile. She is always one of the first cows to calve.

134Y If you want length and thickness then this is your bull. He will go out to your cow pasture and really cover some ground and give you good results. His dam is extremely long and thick just like him and that's where the little extra BW comes from.

THE TERMS & CONDITIONS

TERMS - The terms of the sale are cash or cheque payable at par to Balog Auction Services Ltd., Lethbridge, Alta. The right of property shall not pass until settlement is made. All settlements must be made with the clerks of the sale before any cattle will be released.

BIDS - Every animal entering the sale ring will be sold to the highest bidder. A floor price will apply to each animal consigned.

DISPUTES - In case of disputes, bidding will be reopened between parties involved. If no further bid is made, the buyer will be the person from whom the auctioneer accepted the last bid. **The auctioneer's decision in such matters will be final.**

PURCHASER'S RISK - Each animal becomes the risk of the purchaser as soon as sold.

ANNOUNCEMENTS - Errors discovered in the catalogue will be corrected by announcements from the Auction Stand at sale time and such corrections will take precedence over the printed matter in the catalogue.

CERTIFICATE OF REGISTRY - A certificate of registry duly transferred will be furnished to the buyer for each animal after the settlement is made.

SHIPPING - Assistance will be given in making shipment after the sale, but Balog Auction Services Ltd., or the seller assumes no risk. Expenses incurred are the responsibility of the purchaser. Purchasers are requested to furnish shipping instructions when making settlement. Any additional expenses are the responsibility of the buyer, including duty, brokerage fees, etc.

BREEDER'S GUARANTEE - Everything possible will be done to assure that every bull in this sale will be a breeder. Dr. Mitch Oviatt, (Ranch Docs, Lethbridge) will scrotal measure and physically evaluate every bull. Any animal that has not proven itself within 6 months of sale, if in healthy condition, may be returned to the seller at the buyer's expense. **The seller reserves the privilege of trying for a 6-month period to prove the animal a breeder.** The seller at his option may either return the purchase price or replace the animal with another of equal quality in full settlement and satisfaction of all claims. Any complaints regarding any animal in this sale shall be made to the breeder. All complaints must be reported in writing by the buyer to the seller within 6 months and any animal returned must be free of disease and in good health.

ACCIDENTS - Although every precaution will be taken to protect the safety and comfort of buyers, neither the sales manager, auctioneer nor the owner assumes any responsibility in this matter and disclaims any liability, legal or otherwise, in the event of accident or loss of property.

LIABILITY - Balog Auction Services Ltd. are acting as agents only and assume no responsibility for representations by the seller. Purchasers must look to the seller for fulfillment of all guarantees and representations made hereunder.

A SINCERE THANKS.....

"THANK YOU" TO ALL OF THE BIDDERS AND BUYERS AND THOSE WHO ATTENDED THE 2011 Leeuwenburgh Angus Bull Sale! We sincerely appreciate your interest and support in our cattle.
